Cleaning and hygiene precautions

- Employee use preventive equipment (hand sanitizers, face masks, and gloves) when necessary. We have new cleaning routines where every housekeeper gets fewer rooms per day to clean, all cleaners wear gloves and face mask. All surfaces, materials and ventilation systems have been sanitized using ionized hydrogen peroxide equipment recommended by leading experts and organizations as an appropriate disinfectant against viruses and bacteria.
- In addition, we maintain the highest of standards of cleanliness and want you to feel calm when you visit us. We have our own cleaning staff and can therefore have better control of and dialogue with our cleaning staff. The reception disinfects counters and public areas at least once an hour, this also applies to all elevator buttons and card terminals.
- Obligatory training for all employees in updated sanitation protocols.
- Strict sanitation protocols for cleaning and disinfection, adhering to the guidelines of the Swedish Government and the WHO.
- Strict sanitation protocols for laundry management.
